

# Women's History Month

The 2022 theme for Women's History is:  
Women providing healing, promoting hope.

Originally Women's History Month started out as a national week-long celebration in 1982 called Women's History Week.

In 1987, the National Women's History Project petitioned Congress to expand the event to the whole month of March.

This day is to recognize women's contributions throughout history.
